## CAREER OBJECTIVE

- To secure a challenging position in computer science that utilizes my technical knowledge and problem-solving skills to contribute to organizational success, and to continue learning and growing in a dynamic environment.

## EXPERIENCE

### Teaching Assistant - Darshan University

#### Lab Assistant

📅 Aug 2022 – Sep 2022

📍 Rajkot, India

- As a teaching assistant, I had the opportunity to teach and assist students in their studies of data structure and object-oriented programming (OOP).
- Additionally, I was able to provide guidance and support to students as they worked through challenging concepts and assignments.
- Overall, my experience as a teaching assistant was a rewarding one that allowed me to enhance my own knowledge while helping others succeed in their studies.

### ASP.Net Hackathon

#### Gateway group

📅 Feb 2023

📍 Offline

- I had the opportunity to participate in a .NET hackathon organized by Gateway Group.
- During the event, my team and I developed a project focused on road safety.
- Overall, the hackathon was a great learning experience and a chance to work collaboratively with like-minded individuals in the tech community.

## TECHNICAL SKILLS

- **Languages** : C, C++, Java, dart, javascript, SQL, Python(Beginner)
- **Frame Works** : Flutter, React
- **Tools** : Figma, Visual Studio(Familiar)

## PERSONAL SKILLS

- Having Leadership Qualities.
- Ability to work under pressure.
- Comfortable Working Independently.
- Ability to take initiative to solve problems.

## HOBBIES

- Photography.
- Listening to Music.
- Swimming

## EDUCATION

B.Tech. (CE) - 7.83 CGPA

### Darshan Institute of Engineering & Technology

📅 Nov 2020

HSC

### St.Francis High School

📅 2020

SSC

### St.Francis High School

📅 2018

## PROJECTS

### Flutter Grocery App

- I developed a Grocery App using Flutter that offers users the ability to perform basic calculations of total item prices while also providing local storage capabilities.
- Additionally, the app allows users to save their grocery lists locally, providing a convenient way to reference and manage shopping lists over time.

### Bulky Book

- Buly Book is a web application that I developed using .NET technologies, which allows users to perform CRUD operations.
- This project provided me with a understanding of ASP.NET, a powerful framework for building web applications.

### INGN (ongoing)

- INGN is an app that I am currently developing using Flutter. It will serve as a game suggestion and information provider, offering users a comprehensive database of games and related information.
- With INGN, users will be able to browse and search for games, view detailed information about each title.
